120 Pattern Crown, 1818, by *Pistrucci*, trial of the *obv.* only, similar to the current Crowns of this year, but with a different facial expression of the king, *extremely fine and UNIQUE* (no. 10) 1

\* \* \* From the *Pistrucci* and *Murdoch* (lot 272) collections. The artist left a holograph note in Italian of this coin, of which the following is a translation: "Enclosed is a proof of the head of the Five-shilling piece of George III, of extreme rarity, being unique, the die having broken as may be seen by the flaw in the impression. This is different from all, and as regards the work it is the best head which I ever did for that coin. I never succeeded in re-doing it as fine, notwithstanding the innumerable times I had to repeat the puncheons and dies of the said coin, which broke, and although I nearly always used the remainder of this puncheon to do the others, it will be clearly seen that the first is always the best. This is in my possession as the mint master gave it to me, as he did at other times, not asking for the payment of the metal as I was obliged to pay afterwards.—*B. PISTRUCCI.*" This note accompanies the lot.
